PROFESSIONAL SUMMARY

B.Tech Software Engineering (CS – AI & ML) student at NIAT × Vivekananda Global University (CGPA 9.3/10), currently in 3rd semester, with hands-on experience in C++, Python, JavaScript, React.js, Node.js and the Gemini API. Built and deployed full-stack and AI projects, including an e-commerce platform with payment integration and a Gemini-powered data analyst agent. Seeking internship opportunities in software development and AI/Agentic AI.

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, SQL

Frontend: HTML, CSS, React.js, Tailwind CSS, Bootstrap | **Backend:** Node.js, Express.js, REST APIs | **Database:** MongoDB

AI / Data: Pandas, NumPy, Matplotlib, Gemini API, Gradio | **Tools:** Git, GitHub

EXPERIENCE

Frontend Developer | **TechVerse** | Jaipur

Feb 2026 – Jul 2026

- Built the complete TechVerse information website (techverseconnect.in, live) using React.js as part of a 10-member development team.
- Connected the website to Firebase: Firestore as the database and Firebase Authentication for authentication. **Tech:** React.js, Firebase (Firestore, Authentication).

Web Development Intern | **KODBUD** | Remote

Jun 2026 – Aug 2026

- Built four web projects: a personal portfolio, a responsive landing page, a Google homepage clone, and a form with validation, using HTML, CSS, JavaScript and Bootstrap.
- Used Git/GitHub for version control (VS Code) and deployed on Vercel and Netlify: [Landing Page \(Live\)](#), [Google Clone \(Live\)](#), [Valid Form \(Live\)](#).

AI/ML Learning Program | **3Skill** | Remote (training program)

Feb 2026 – Apr 2026

- Completed structured AI/ML training in Python, NumPy, Pandas and Matplotlib; practiced exploratory data analysis, data preprocessing and hyperparameter tuning through learning exercises.

PROJECTS

Choudharyji – E-Commerce Web Application

Tech: Next.js, React, TypeScript, Tailwind CSS, Supabase, PostgreSQL, Razorpay, Cloudinary

GitHub: github.com/amoghkashyap1427/E-Commerce-Web-Application | **Live Demo:** e-commerce-web-pickle.vercel.app

- Independently built a full-stack storefront and admin panel (product catalog, cart, checkout, order management) for a registered pickle startup; deployed on Vercel.
- Engineered atomic stock reservation with PostgreSQL functions (decrement_stock, release_stock, release_expired_holds) so concurrent orders cannot claim the same inventory.
- Integrated Razorpay payments via server-side routes (create-order, verify-payment, release-hold) and Cloudinary for product image management.
- Implemented authentication: admin login with Supabase SSR and customer OTP verification with JWT-based sessions.

DataPilot – AI Data Analyst Agent

Tech: Python, Pandas, NumPy, Matplotlib, Gemini API, Gradio

GitHub: github.com/amoghkashyap1427/DataPilot | **Live Demo:** huggingface.co/spaces/AmoghKashyap17/DataPilot

- Built an agent that answers natural-language questions on uploaded CSV datasets, using Gemini function calling to select safe, deterministic Pandas tools.
- Implemented multi-step workflows (dataset profiling, missing-value analysis, aggregations, derived metrics) with sequential and parallel tool execution and a visible execution trace.
- Added bar, line, scatter and histogram visualizations; built the Gradio interface, secured the API key with environment variables, and deployed on Hugging Face Spaces.

RailScan – PNR Status & Railway Tracker

Tech: React.js, RailRadar APIs

GitHub: github.com/amoghkashyap1427/PNR-Status | **Live Demo:** pnr-status-17.vercel.app

- Built a React.js railway information app that fetches live train data from the RailRadar APIs.
- Implemented live train location tracking, train route and details, and an interactive map.
- Added PNR status lookup and station search for user-facing railway information.

EDUCATION

B.Tech in Software Engineering (Computer Science – AI & ML)

2025 – 2029 | CGPA: 9.3/10

NIAT × Vivekananda Global University | Currently in 3rd Semester

Class 12 (CBSE), N.N. International School, 2025: 79.6% | Class 10 (ICSE), Holy Family School, 2023: 93.4%

CERTIFICATIONS

Practice Strings – CodeChef

20 Aug 2026

AI Agents 201 Hands-On Workshop – NIAT

13 Apr 2026

Building Production-Ready RAG Assistants with LangChain – NIAT Masterclass

21 Jul 2026

ACHIEVEMENTS / LEADERSHIP

- Solved 196 LeetCode problems (122 Easy, 60 Medium, 14 Hard); contest rating 1460 across 3 contests; 53-day maximum streak. Solved 125 Codeforces problems; active on CodeChef.
- Cleared NIAT CP Contest 1 and 2 (invited to the final round in Hyderabad); selected for NIAT Intensive Competitive Programming Training.
- Shortlisted in Internal Smart India Hackathon 2025; Captain/Head of Phoenix Team at VGU National Level Project Exhibition 2025.
- PR Head, Sports Club; Member, Gen AI Club and Advanced Tech Club. Languages: English, Hindi.
